CORE SKILLS

Frontend

React.js Next.js TypeScript Tailwind CSS
Redux Toolkit Framer Motion

Backend & DB

Node.js Express.js MongoDB MySQL
Firebase JWT

Mobile

Flutter Dart Android iOS

AI & Tools

OpenAI/Gemini API Prompt Engineering
Git/GitHub Vercel Netlify

QA & Analysis

Manual Testing Requirements Analysis
UI/UX Basics

LANGUAGES

English — Professional

Urdu — Native

Fizza Munir

Software Engineer · Full-Stack (MERN) & Mobile App Developer · 3+ Years Experience

PROFILE

Detail-oriented Software Engineer and freelance Full-Stack & Mobile Developer specializing in Next.js, TypeScript, React.js, Node.js, MongoDB, and Flutter. Delivers scalable, high-performance web and mobile products end-to-end — design, development, testing, and analysis — for clients across Pakistan, the UAE, and the USA. Enthusiastic about AI-powered solutions and continuously exploring modern technologies to build reliable, production-ready applications.

PROFESSIONAL EXPERIENCE

Software Engineer — Android & iOS Developer

Aug 2026 – Present

TLC Med Clinics · Lahore

- Own end-to-end development of a bilingual (English/Urdu) healthcare platform (web, Android & iOS) — requirements analysis, UI/UX design, development, QA testing, and deployment.
- Built a physician-led, US-standard care experience with telemedicine integrated as a core flow.
- Manage the full software lifecycle solo across web and mobile platforms.

MERN Stack Developer

May 2026 – Jul 2026

Etrends Solutions · Remote

- Designed and developed a modern, responsive travel business website with AI-driven marketing and lead-generation flows.
- Shipped features end-to-end fully remote using Next.js, Tailwind CSS, and Framer Motion.

MERN Stack Developer

Mar 2026 – Jul 2026

Success Signatures · Lahore

- Developed responsive and scalable full-stack web applications using Next.js, React.js, Node.js, Express.js, TypeScript, and MongoDB.
- Built secure RESTful APIs, authentication systems, and database integrations for production-ready applications.
- Deployed and maintained applications using Vercel, Netlify, and Render.

Associate Software Engineer

Nov 2024 – Oct 2025

Kreatorz.co

- Designed, developed, and maintained full-stack features for web applications using React.js, Node.js, and TypeScript.
- Implemented dynamic dashboards, data visualization charts, and secure authentication for live projects.
- Participated in code reviews, debugging, and performance optimization in an agile team.

MERN Stack Intern

May 2024 – Oct 2024

Kreatorz.co

- Built responsive UI components with React.js and Tailwind CSS; supported backend API integration tasks.

RECENT PROJECTS

TLC Med Clinics | Healthcare Platform (Web, Android & iOS)

Bilingual, physician-led healthcare platform with integrated telemedicine; owned design, development, and testing end-to-end.

Etrends Solutions | Travel Business Website

Modern, responsive marketing site with AI-driven lead generation, built with Next.js, Tailwind CSS & Framer Motion.

Beauty Here | AI-Powered E-commerce Website (Final Year Project)

Full-stack MERN e-commerce platform with JWT auth, dynamic catalog, cart, and secure checkout.

EDUCATION

Bachelor of Science in Computer Science

University of the Punjab, Lahore · 2021 – 2025

MERN Stack Development

Nexskill, Arfa Kareem Tower, Lahore

Planning to start a Master's degree to deepen software engineering & AI expertise
